1 Menu Creation Method

On this first screen, select whether to use a menu template, create a custom menu, or have no menu at all. You also set the menu aspect ratio here.

2 Select a Menu Template

If you choose to use a template, you select from a variety of designs. You can also use the category list to narrow your options down.

3 Menu Structure Settings

Here, you can select the menu structure. If you're a beginner, select "Automatic" and it will choose the best structure based on your tracks.

4 Disc Playback Settings

For DVD/Blu-ray, you can choose what the player does when a disc is inserted and what happens when a track is finished playing.

Finished!

The menu for the selected template is now complete. Of course, you can continue to add items or edit the menu as you wish.

Create a Custom Menu

You can also create an original menu with the Menu Wizard. Simply select thumbnail layouts, button and frame styles, and a background image.
