In March of 2007 I was an on-couch reporter covering a Super Bowl for the New York Post. I was sitting down to do some research when I heard three of my friends talking about a game in Los Angeles. They were talking about the Los Angeles Rams-it was Sunday. And we were sitting down to do our homework. We had two TV's, and we were thinking, what was this game going to be called? And of that I was able to get away with no knowledge of the Rams-I had never heard of Los Angeles, and it was also the month that we all decided that we were going to take this game, so there was no pressure to learn anything about them (laughs).. Here's what has been released so far: Hollywood Movie India - A Variety ReleaseA woman on a bike is getting ready to ride her bike from her home in New York to Manhattan's Central Park when she sees a woman with a young male companion in a nearby restaurant, according to police. The woman is upset about the altercation, and calls 911. The New York Police Department reports the bicycle ride is a "noize incident" -- that is, a confrontation involving two people. The woman's phone rings, and police tell her to leave, but she continues riding. A neighbor of the woman who called 911 calls the 911 operator to let him know about the noise. The neighbor tells police that if a woman like this is running around with a young male companion, she's in danger. If the male does not leave immediately, the neighbor tells police, "there's a possibility the girl will be killed," a neighbor tells the 911 operator.
